The abstract must be prepared in A4 format (297x210 mm) with 25 mm margins each side. The manuscript file must be in an editable format (.doc/.docx). The submission of pdf files is not allowed. Times New Roman should be used for the entire document.

You are recommended to use this Template for the abstract preparation.

The title of the contribution should be centred and written in bold script, font size 14 pt. This should be followed by a 12 pt space before the author's/authors' name(s). The name(s) should be centred, written in 12 pt, normal script and given in the following order: given name, (initials) and surname. Author names in one line and affiliations should be linked with corresponding superscript Arabic numerals. After the name(s) there should be a 12pt space before the affiliation list. Affiliations should be centred, written in 10 pt italic script, and include at least the name of the institution, city and country. The corresponding author should be marked by an asterisk (*). The e-mail and telephone number for the corresponding author must be given.

There should be a 24 pt vertical space before the main body of the abstract. The body text should be single spaced and fully justified, in 12 pt, normal script, with paragraphs separated by a 12 pt space. No headings or subheadings should be used in the abstract. We expect all texts to be written in good English and that grammar and spelling have been checked before submission. No figures, tables, equations or references should be included. Abbreviations and acronyms must be clearly defined.

The abstract should be 300 words in maximum, and must not exceed one page. The abstract should clearly state the purpose of the work, approach, research gap (if any) and methodology, significant results, with concise conclusions or recommendations.

The main body of the text is to be followed by the keywords, with a 24 pt space between. At least three keywords and a maximum of five keywords must be given. Keywords should be in 12pt script and separated by commas. The first letter of each keyword or keyword phrase should be capitalized.
